"Home by the Park," is a well shaded, elegant home of a local artist, which resides on the exclusive Warren Street, nestled in the oasis of Warren Park. Approximately 15 minutes from the GWB, close to trains, bus, houses of worship, schools and swim club. This home maintained still by the original owners, was later designed to include a family room with fireplace, Art Studio and back deck. An easy flow moves from room to room on the main floor. A separate entrance leads into a functioning sun-filled Art Studio, a versatile space which can be used as an office or playroom. Five Skylights and a front bay window which gives a picturesque view onto trees and park. Care for the lawn has been pesticide free. A one of a kind combining classic and contemporary styles, this home situated on a dead end street offers a quiet location in a serene neighborhood.
