Villa under construction with indoor and outdoor pool with sea views in Puntiró. This new villa, currently under construction, is scheduled to be completed by mid-2019. The project presents a luxurious, spacious, bright house, with a style that combines the typical Mallorcan stone with modern finishes. The house has an elevator and is built on three floors. The house has a large front terrace, which integrates a large infinity pool, as well as a barbecue area with outdoor kitchen and bar. On this same terrace we find an original integrated bench with gas stove. Access to the ground floor through a large landscaped courtyard and a nice waterfall. From the entrance we access a wide and diaphanous ground floor, with a living room with two ambients, very bright and with direct access to the porch and terrace that surround the house. We also find a large semi-open kitchen to a large dining room connected to the living room. On this same floor we find a bedroom with bathroom en suite and a toilet. On the first floor there are four bedrooms, all with en suite bathroom and dressing room. In the basement we find a beautiful indoor pool, with a SPA area with sauna, as well as a bar, a cinema room and a large leisure room. In the basement we also find a garage area closed for two cars and covered for two more cars.

Amenities

- Furnished
- Security system
- Terrace
- Smoke alarms
