Masterfully renovated corner townhome in prime Capitol Hill location! No detail has been overlooked by the respected DC developer, who designed and built this home to be his own. Completely new construction from fully excavated lower level through entire structure. The primary bedroom suite is a stylish sanctuary featuring a large bay with 4 windows, dual closets, en-suite bathroom with honed marble and heated floors plus a bonus room with so many possibilities: study, work-out, nursery, dressing room or expanded bathroom with tub. Two additional bedrooms, a full bathroom and washer/dryer complete the second floor. A large family room, 4th bedroom and full bathroom occupy the lower level, which can be customized with the addition of a wet bar or kitchen as well as a 5th bedroom if desired. Off-street parking for 2 cars plus extensive landscaping surround this showcase property. Some other updates include a new 1.5' copper water main line and an all-house sprinkler system with hidden heads.
