The all brick basement rancher is a step above typical homes in almost every category. From the stamped concrete driveway leading to a massive 3 car garage to the beautiful millwork throughout this, builder/owner thought of everything. A very open floorplan allows for easy entertaining and lets natural light flow from all angles. Space is the word that comes to mind, from the master suit with a huge walk-in closet and room for a nursery or on-suit office to the walk-in pantry and laundry room there is just plenty of space and storage for everything. Step outside you again have so much space to enjoy with over 2 acres of private wooded land you can see from any of the covered, screened or open decks and porches. There really is too much to mention, please call today for more information.
