From the moment you enter the gates of this two hectare property you experience the peace, tranquility and beauty of this extraordinary country oasis. From the views of the mountains to the Santuario across the valley, you leave the every day hustle and bustle behind. The grounds have been lovingly maintained and the trees and flowers fill you with a feeling of calm. The main home is positioned to take maximum advantage of the views. Built around a spacious courtyard on one level, there is an old world elegance, without the heaviness of traditional colonial design. The main living spaces have mahogany arched windows and doorways. The rooms are spacious and elegant with high, domed ceilings in several of them. The stone, wood tiles and adobe give a variety of traditional textures creating a beautiful and warm ambience. There is also a separate two-bedroom charming casita far enough away from the main house with its own patio and spectacular views that could easily function as a rental property or private in-law residence. The true beauty of Casa de Los Milagros must be seen to be appreciated. A rare 1903 Bechstein grand piano is included with the purchase of this special property!
